Grabener, E.
A SIMPLIFIED "GASTRACID" TEST. [1962] 5p.
11 refs.
Order from SLA $1.10 63-10042

Trans. of Deutsche Medizinische Wochenschrift (West Germany) 1962, v. 87, no. 3, p. 1613-1614.

DESCRIPTORS: *Stomach, Secretion, *Acids, Test methods, Urine, Medical procedures, *Colorimetry, Drugs, Caffiene, Pyridines.

A simplified form of the "Gastracid" test is described: no control urine sample is required. After a red colour of the acidified urine has developed, alkalinity is achieved by adding sodium hydroxide. If the red colour disappears, the test is positive and a control urine sample need not be tested. 50 control tests were performed to show that, if desired, a cup of Nescafe can take the place of the caffeine tablet. In patients confined to bed this is in fact preferable. (Author)
